Agent for Zendesk

Consolidated agent desktop for fast, personalized service

Driving business results in your contact center is no easy task in today's highly competitive environment. Customers expect a consistent experience, with personalized interactions regardless of how they reach out to you. At the same time, you are asked to optimize efficiency and do more with less.

CXone Mpower's Agent for Zendesk tightly integrates your CRM with your contact center operations for optimal business benefits, including improved agent productivity, holistic customer data and more personalized customer experiences.

Personalize every interaction

Agent for Zendesk empowers agents with a 360° view of data from across the entire customer journey.

- Deliver more personalized interactions that take less effort, make customers feel valued and set you apart from the competition
- Shorten average handle time by delivering all relevant customer information to the agent before the interaction begins
- Increase agent satisfaction by empowering them to deliver better outcomes for customers and the business
- Maximize your CRM ROI by leveraging your Zendesk data to improve customer interactions in the contact center

Increase agent efficiency

An integrated desktop gives your agents quick and easy access to the tools and information they need to handle more interactions in less time.

- Reduce agent effort with a unified CRM and contact center desktop that eliminates the time spent navigating between separate applications
- Streamline call handling with an integrated softphone and click-to-dial capabilities
- Improve contact handle time by automatically delivering a holistic view of the customer's history directly to your agent's desktop so they can quickly determine the next best action
- Reduce after-call work by automatically updating your CRM with contact center interaction data

Key features

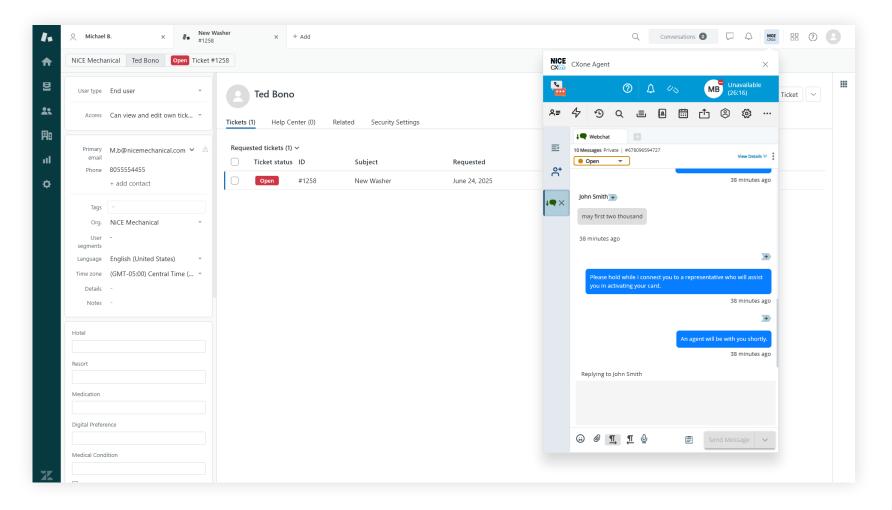

- Intuitive contact center controls seamlessly integrated in the Zendesk desktop
- Support for inbound and outbound voice, voicemail and click-to-dial from Zendesk
- Call data used to identify the customer and route them to the best agent or queue—for faster, more personal service
- Automated mapping of inbound interaction data to CRM fields
- Automatic data synchronization between contact center and CRM for holistic customer journey
- Agent desktop access to personal and team performance and productivity statistics
